DELL-EMC

E22-106

EMC Legato Certified Availability Administrator (LCAA)

- C. 2
- D. 1

Answer: B

QUESTION: 117

Which three statements about ftcli are true? (Choose three.)

- A. Theftcli commands can be used to debug and trace the AAM agents for events that the Management Console does not identify.
- B. Theftcli commands can be launched from the \$FT_DIR/etc directory on UNIX, and the %FT_DIR%\etc directory on Windows.
- C. Theftcli commands can be used to back up and restore AAM domains.
- D. Theftcli commands can be used to import resource objects.
- E. Theftcli commands can be used to configure isolation detection and to create the isolation script.

Answer: A,C,D

QUESTION: 118

What should you do to cause the Resource Group to wait between objects in the startup sequence?

- A. increase the wait before startup value on the subsequent object
- B. increase the wait value on the preceding object
- C. insert a delay into the startup sequence
- D. insert an event in the startup sequence

Answer: C

QUESTION: 119

What can you determine using the FT_NODE_PING_TIMEOUT environment variable when configuring a managed IP address?

- A. increases in the number of IP addresses tested
- B. decreases in the number of IP addresses tested
- C. the maximum time that AAM uses to identify failure
- D. the amount of time that AAM waits to assign the IP address

Answer: C

QUESTION: 120

When considering the use of a dedicated Mirroring Network, which two statements are true? (Choose two.)

- A. You must assign a static IP address for the dedicated link that is on a separate subnet from any domain network or public network.
- B. The Network Interface Card (NIC) used for mirroring must appear before the NICs used for the public network.
- C. You must ensure that TCP/IP is the only network protocol on that link and all other protocols are disabled.
- D. The NetBEUI protocol must be enabled for the mirroring network.
- E. You must set the duplex mode for the adapter to AutoSelect.

Answer: A,C

QUESTION: 121

You are installing the AAM agent and console on a Solaris node. Which two environment variables should be set? (Choose two.)

- A. FT_DOMAIN
- B. FT_DIR
- C. FT_CONSOLE
- D. FT_SETUP
- E. FT_STARTUP

Answer: A,B

QUESTION: 122

Which three are reasons for testing filesystem data source attachment and detachment on all applicable nodes prior to implementing AAM? (Choose three.)

- A. to ensure that AAM is capable of setting filesystem permissions correctly on all applicable nodes
- B. to ensure that data sources can be mounted and accessed without error on all applicable nodes
- C. to ensure that filesystem owner usernames or accounts and groups exist on all applicable nodes
- D. to ensure that shared storage devices are properly shared to all applicable nodes

E. to ensure that filesystem mount points exist on all applicable nodes

Answer: B,D,E

QUESTION: 123

By default, AAM port values are 8042 to 8045. Which command should you use to verify if these ports are available?

- A. nslookup -a
- B. nbtstat -a
- C. netstat -a
- D. portstat -a

Answer: C

QUESTION: 124

Which two statements are true? (Choose two.)

- A. The Management Console can only run on a node on which the agent is running.
- B. The Management Console can connect to any AAM domain installed on the network, provided that the user has access rights to the AAM domain.
- C. Any logged on user can use the Management Console that was installed by a user with Administrative access rights.
- D. The Management Console can be run by any user granted User access rights if the node has IP access to any node on which an agent is running.
- E. For convenience, AAM domains share their security information with each other allowing a user that can access one AAM domain to automatically access all others on the network.

Answer: B,D

QUESTION: 125

Which statement explains the importance of proper name resolution as it relates to AAM domain lines?

- A. Name resolution must return all of a domain's domain line, managed IP, node alias and test IP addresses when AAM executes the gethostbyname function against a domain name.

- B. Name resolution must return all of a node's domain line IP addresses when AAM executes thegethostbyname function against the node name.
- C. Name resolution must return all of a node's domain line, managed IP, node alias, and test IP addresses when AAM executes thegethostbyname function against a node name.
- D. Name resolution must return all of a domain's domain line IP addresses when AAM executes thegethostbyname function against the domain name.

Answer: B

QUESTION: 126

Which three statements are true about node demotion? (Choose three.)

- A. After demotion, the node no longer maintains a copy of the AAM database.
- B. Only primary nodes can be demoted.
- C. When a primary node is demoted, its backbone is deactivated.
- D. When a primary node is demoted, its rule interpreter continues to run.
- E. The node must be online when the demotion takes place.

Answer: A,B,C

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
